

App. No. 10/699,791  
Amendment dated Mar. 27, 2006  
Reply to Office Action of Dec. 27, 2005

Docket No. AB-1659-2C

**Amendments to the Claims:**

This listing of claims will replace all prior versions and listings of claims in the Application:

**Listing of Claims:**

1. – 20. (cancelled)

21. (currently amended) A thin film transistor (TFT) array panel for a liquid crystal display, comprising:

a first line;

a second line intersecting the first line;

a pixel region defined by the intersection of the second line and the first line;

a pixel electrode formed in the pixel region; and,

a conductive pattern connected to the second line and having a ladder shape and at least two branches disposed at both sides of the first line.

22. (previously presented) The TFT array panel of claim 21, further comprising a storage wire including a storage electrode line.

23. (previously presented) The TFT array panel of claim 21, further comprising a passivation layer formed between the pixel electrode and the first line and the second line.

24. (currently amended) A thin film transistor (TFT) array panel for a liquid crystal display, comprising:

a first line;

a common wire including a common electrode line;

a second line intersecting the first line;

a pixel region defined by the intersection of the first line and the second line;

a pixel electrode formed in the pixel region and overlapping the common electrode; and,

a conductive pattern connected to the second line and having a ladder shape and at least two branches disposed at both sides of the first line.

Reply to Office Action of Dec. 27, 2005

Docket No. AB-1659-2C

25. – 30. (cancelled)

31. (currently amended) The TFT array panel of claim 22, wherein the conductive pattern and the storage wire are formed in the same layer ~~of the same material~~.
